

Nature

The essentials for getting started.

180 × 60 cm

An open, uncomplicated kitchen for mixing, pouring and imaginative play.

- Two open stainless steel basins, without lids
- One large backboard shelf and open lower storage
- Base model without a tap: dry play or water brought by hand
- Optional water equipment, by quotation

By quotation

Concept illustrations, not technical drawings. Indicative dimensions, confirmed on the design sketch. Decorative accessories, utensils and plants shown are not included.

Nature Plus

Compact when folded. More room to play.

180 cm • 260 cm unfolded
60 cm deep

Two folding 40 cm side extensions create more workspace when it is time to play.

- Two open stainless steel basins, without lids
- Tap, drain and removable water collection included
- Two backboard shelves: one large and one small
- Open lower storage; extensions unfolded by an adult

By quotation

Concept illustrations, not technical drawings. Indicative dimensions, confirmed on the design sketch. Decorative accessories, utensils and plants shown are not included.

Signature

A generous, permanent workshop.

250 × 65 cm • fixed worktop

A wider kitchen with carefully finished joinery and personalised engraving to make it your own.

- Two open stainless steel basins; tap, drain and removable water collection included
- Three backboard shelves: one large and two small
- Open lower storage; no folding extensions or basin lids
- Personalised engraving included; wording approved before manufacture

By quotation

Concept illustrations, not technical drawings. Indicative dimensions, confirmed on the design sketch. Decorative accessories, utensils and plants shown are not included.

The details that make a difference

Pressure-treated pine as standard; black locust (Robinia) optional, subject to availability and suitability for the intended use. Height adapted to the children and setting, confirmed during design. Prepared, sanded timber, rounded edges and stainless steel fixings. Local transport, installation and metal anchoring on suitable ground are defined in the quotation.

For Signature: carefully finished joints, edges and alignment; discreet fixings where suitable and removable technical cladding to retain access to the plumbing.

Site-specific connections and ground works are quoted separately. For Nature Plus, extension supports, locking and load limits must be finalised before manufacture.

Concept illustrations, not technical drawings. Indicative dimensions, confirmed on the design sketch. Decorative accessories, utensils and plants shown are not included.

All prices by quotation. Equipment, options, transport, installation and site-specific works are specified in your proposal.
